IMMACULATE CONCEPTION CHURCH CAPITAL CAMPAIGN 2015

Project Description

In anticipation of Immaculate Conception Parish's 150th anniversary, the Church building received considerable attention through this project. Plans for the Church included a newly expanded main entrance/gathering area with restrooms, the relocation of the Baptismal font in the Church proper, enhancement of the Tabernacle and Stations of the Cross, the repurposing of two of the old confessionals into devotional spaces, and the design of a new music dais. Additionally, the campaign covered replacement of the floor covering, refinishing of the pews and upgrades to the lighting and sound system with audio-visual capability. Installation of a new HVAC system in the school, cemetery improvements, and the additional handicap parking spaces were the final components of this project.
