December 9, 1993

Mr. Jack J. Kearns
Kearns & Associates
Suite 947
Ellicott Square Building
Buffalo, New York 14203

Dear Jack,

We wish to express our sincere appreciation to you for conducting a successful New Cathedral Building Campaign in our Parish. Many of our members questioned the need of a professional fund raiser to help us attain our needed funds, but their skepticism soon turned to positive acceptance of you because of your honest, realistic and professional approach to this campaign. Through your expertise and leadership we have not only surpassed our desired goal but have been blessed with a new attitude towards stewardship. Our campaign workers who volunteered their time and talent are now better trained and equipped to serve the Church in future projects.

We chose \$500,000 as our campaign goal since our membership is not large, but after two weeks into the campaign, our total gifts and pledges surpassed \$650,000. There are still large gifts and memorials coming in and we are confident that in three years, we will double our initial goal.

This success is the result of your personal interest and caring guidance throughout every phase of the campaign. We are grateful to you for convincing us that without your help, we would have never raised this amount. We therefore, highly recommend your firm to any other pastor or parish who are in need of raising funds to consider your outstanding record in meeting and surpassing goals. We are completely satisfied with you as an honest, sincere and positive leader, who helped to give us greater confidence in our selves and our project, and would not hesitate to hire you again.

May God bless you with continued success in future campaigns.

Sincerely,

+Thaddeus Peplowski

Bishop
