Attention: Jack Kearns:

Dear Jack,

It has been awhile since the campaign for the New Parish Center ended. I am writing to thank Kearns and Associates for the great job in assisting Immaculate Conception Parish in this campaign.

As a small parish in a little town like Eden, you as a local company, guided us in every step of this process and provided advice before and after the campaign.

Originally, we interviewed three companies for our campaign, but after learning of your success and the good reputation your firm has, we decided to hire you. Today I can write to you that I was not wrong, we made a good decision because we raised almost \$600,000 for our parish center.

Our parish staff and volunteers enjoyed working with your representative Mr. Michael Coffey. His job was professional, he knew what he was doing, and he had a friendly approach to people, workers and parishioners. It truly was a pleasure working with him. He still keeps in contact, is guiding us as the money continues to come in, even the campaign is over.

When in our region parishes or other groups are seeking the management of a fundraiser, we would strongly recommend your firm. You are very familiar with our area, our people and are the best way to achieve their goal.

In closing, I wish your company continued success in this very important work and would recommend Kearns & Associates to anyone in need of raising funds.

Sincerely,

Rev. Walter P. Grabowski
