To Whom It May Concern:

I would like to express how strongly I feel concerning the professionalism and sensitivity that Jack Kearns and his associates exhibited in our recent Capital Campaign. .

The process that our committee employed to hire Jack was very important. We chose whom we considered possibly the top five fundraisers for Catholic institutions in the country. After the first interview, we chose three for the final interview. Ultimately Jack Kearns was our unanimous choice.

We were fairly sure at that time we had chosen the best person and company, now nine months and \$1,000,000.00 later we are sure. Jack was always available and we definitely received more than we contracted for. He simply did not leave us high and dry after his contracted time expired, but rather has always been accessible by phone and has since stopped by to assist us many times.

Jack is a professional, yet his comfortable and approachable manner made the volunteer recruiting process an easy experience.

I have been a member of the same priest support group for the past twenty years. Four of our nine members have, are, or are planning to use Kearns & Associates.

Let me conclude by saying that I would have no reservations in recommending Kearns & Associates, and if we do have a future capital campaign, there will be no doubt whom we will call upon. Please do not hesitate to call me if your desire more information.

Sincerely,

Rev. Timothy H. O'Neill
